Press Release

ISO Certification Announcement

Hamsar Diversco is proud to announce that, as of June 21, 2011, we are now compliant in ISO Certifications; ISO 14001:2004 and OHSAS 18001:2007 along with recertification in ISO 9001:2008. The certifications were accredited by the world renowned system certification company, Intertek.

Certification in ISO 14001:2004 is the approved Environmental Management System in which Hamsar adheres to in daily operations. This is applicable to the management of the environmental aspects related to: design, manufacture and distribution of electronics, electrical harnesses and vehicle lighting products. The environment is of the utmost importance at Hamsar and we are very satisfied in this achievement.

The Occupational Health and Safety Management System, OHSAS 18001:2007, is Hamsar Diversco's most important certification. Through this accomplishment Hamsar has been recognized for firm policies and procedures to ensure that workforce safety. Hamsar thrives in their ability to implement, maintain and improve the Health and Safety Management System to ensure that employees and visitors are at minimal risk.

ISO 9001:2008 is a re-certification of Hamsar's quality management system. This recognizes that the policies, practices and procedures of our company ensure consistent quality in the product and service we provide to our clients. With this certification, our customers can be confident that Hamsar is dedicated to maintaining the highest efficiency and responsiveness in achieving customer confidence.

Hamsar Diversco will continue to be a world leader in Lighting and Electronics. These newly established ISO Certifications coincide with our vision and company direction. Hamsar will be diligent in our compliance of these regulations and what has become expected from our clients.
